WAGYU BEEF

WAGYU is a Japanese beef cattle breed derived from native Asian cattle. Wagyu refers to all Japanese beef cattle where 'Wa' means Japanese and 'gyu' means cow.

Wagyu cattle produce the finest quality beef in the world, highly prized for its rich flavor, high marbling content and tender texture. Wagyu cattle have a genetic disposition that yields healthier beef containing higher percentages of monounsaturated fats, omega-3 and omega-6 fatty acids than typical beef.

We grind our burgers in-house from fresh, American raised Wagyu beef that is raised naturally without antibiotics or hormones. We do not recommend cooking this beef past medium!
